Formal Assessment

I plan to use my ten question in-class worksheet as my formal assessment. This worksheet will consist of five short answer questions highlighting the main theme of the story (unexpected heroes) and other important characteristics of the story. For example, one question asks the students to describe one of Walter Mitty's daydreams. The other five questions are matching vocabulary from the story that I will have paused to explain and elaborate on while the students read the story aloud in class. The students will be expected to complete this worksheet with ninety percent accuracy.
